You're Never Alone

Hospice is Not About Giving Up – It's About Living Fully & Intentionally With the Time We've Been Given.

“A message of hope and comfort from Serenity Point Hospice, LLC”.

Why Consider Hospice?

- Because your loved one deserves
- comfort, dignity, and peace.
- Hospice care focuses on quality of life – not just medical needs.
- We help manage pain, support families, and create meaningful moments.

How Does It Work?

Once referred, we come to you- whether at home, in assisted living, or a nursing facility.

- Nurses, aides, chaplains, social workers, volunteers
- Medical equipment and medications for comfort
- Emotional and spiritual care for the whole family

When Should I Start?

Many families say, “We wish we’d called sooner.” You should consider hospice when:

- Treatments are no longer working
- Quality of life is declining
- You or your loved one feel overwhelmed by symptoms or caregiving
- There’s a life-limiting illness with a prognosis of six months or less

Starting sooner gives you more time for comfort, clarity, and connection.
